The Midwest Care Alliance expresses deep appreciation and gratitude for the cooperation of the Ohio State Medical Association, the Ohio Hospital Association and the Ohio Osteopathic Association for their efforts in the development and distribution of this Advance Directives Packet: Choices, Living Well at the End of Life. We also thank the Ohio State Bar Association for providing the legal language for the Living Will and Health Care Power of Attorney forms. The packet includes information regarding Hospice and Do-Not-Resuscitate Orders, a Donor Registry Enrollment Form (September 2009) and one copy each of Ohio’s Living Will and Health Care Power of Attorney forms. The Living Will and Health Care Power of Attorney forms conform with the requirements of Ohio’s Living Will Law, as amended effective September 2009.

Today, advances in medicine and medical technology save many lives that only 60 years ago might have been lost. Unfortunately, sometimes this same technology also artificially prolongs life for people who have no reasonable hope of recovery.

No one likes to think about death and dying, but they are inescapable realities of life. Armed with the information and forms in this packet, you can take control of choices regarding your medical future.

In 1991, Ohio recognized your right to have a Living Will. This was in addition to Ohio’s other recognized advance directive at that time, the Health Care Power of Attorney. In 1998, Ohio recognized yet another tool to help you and your physician with effective health care planning called a DNR (Do-Not-Resuscitate) Order. All of these measures help put control over future medical choices in your hands.

The Living Will allows you to decide and document, in advance, the type of care you would like to receive if you were to become permanently unconscious or terminally ill and unable to communicate. The Health Care Power of Attorney enables you to select someone to make decisions for you.

A person who does not wish to have Cardiopulmonary Resuscitation (CPR) performed may make this wish known through a doctor’s order called a DNR Order. A DNR Order addresses the various methods used to revive people whose hearts have stopped (cardiac arrest) or people who have stopped breathing (respiratory arrest). In 1998, a DNR Law was established to help people communicate their wishes about resuscitation to medical personnel inside or outside a hospital or nursing home setting. It allows emergency medical workers to honor a person’s physician-written DNR Order in the home, nursing home or various other settings. The 1998 DNR Law also protects emergency squads and other health care providers from liability if they follow a person’s DNR Order.

Following the establishment of the 1998 DNR Law, the Ohio Department of Health established two types of DNR Comfort Care Orders that allow people to choose the extent of the treatment they wish to receive at the end of life. A person with a “DNR Comfort Care Arrest Order” will receive all the appropriate medical treatment, which may include components of CPR, until the person has a cardiac or respiratory arrest, at which point only comfort care will be provided.

By requesting the broader “DNR Comfort Care Introduction Order,” a person is choosing, from the moment the order is written, to have only comfort care measures provided should an event occur that is life threatening or ending. Your physician or health care provider can explain the differences in DNR Orders.
In addition to the Living Will and Health Care Power of Attorney forms, you will find a copy of the Donor Registry Enrollment Form in this packet. Also included in this packet is information about DNR Orders and the hospice choice, which offers further information about end of life issues and options. The last page offers a convenient wallet card that will provide important information to your health care provider.

It is important to understand what Ohio’s laws allow or do not allow in regards to expressing your desires, goals and wishes by using tools such as Ohio’s Advance Directives. This packet is meant to educate you about Ohio’s Living Will; Health Care Power of Attorney; Anatomical Gifts and the 1998 DNR Law. The goal is to provide you with the information you need to document your future health care decisions.

The information and forms in this packet are made available to you through the collaborative effort of the Midwest Care Alliance, the Ohio State Medical Association, the Ohio Hospital Association and the Ohio Osteopathic Association. The Ohio State Bar Association prepared the Advance Directive forms.

After reviewing the contents of this packet, you may have additional questions or concerns specific to your personal situation. In such a case, it is important that you discuss your concerns with your family, your physician and your lawyer.

If you choose, you can fill out the Living Will or Health Care Power of Attorney forms by yourself; you are not required to use a lawyer. However, since these are important legal documents, you may wish to consult a lawyer for advice.

In contrast, a DNR Order can only be completed by a physician, certified nurse practitioner or clinical nurse specialist, as appropriate. If you would like to indicate that you do not wish to have CPR, you will need to have a discussion with your physician. Your physician can explain the differences between DNR Orders and their application.

The issues involved in drafting or determining one’s wishes regarding a DNR Order, Living Will, Health Care Power of Attorney or Anatomical Gifts are very important. We hope this information and these materials are useful in helping you to make a decision that is comfortable for you and your family.
Your Questions Answered
“Living Will and Health Care Power of Attorney”

Q: Aren’t Living Wills or Health Care Powers of Attorney just for older people?
A: It is important for anyone over age 18 to think about filling out one or both of these documents. Serious illness or injury can strike at any stage of life. A Living Will or Health Care Power of Attorney will help to ensure that your wishes regarding life-sustaining treatment are followed regardless of your age, and that, when you are no longer able to voice your own wishes, your prior decisions are followed or made for you by the person you choose.

Q: Can I indicate that I wish to donate my organs after death through a Living Will or Health Care Power of Attorney?
A: Ohio law requires that a Living Will created after December 15, 2004, must include a person’s preferences about Anatomical gifts (organ and tissue donation). The Living Will form included in this booklet has the required section and also provides instructions regarding how to keep your wishes registered with the Bureau of Motor Vehicles. Living Wills completed before December 15, 2004, that do not include the Anatomical Gifts section are still valid and will be honored in Ohio.

Q: If I state in my Living Will that I don’t want to be hooked up to life support equipment, will I still be given medication for pain?
A: Yes. A Living Will affects only care that artificially or technologically postpones death. It does not affect care that eases pain. For example, you would continue to be given pain medication and other treatments necessary to keep you comfortable. The same is true with a Health Care Power of Attorney. The person you name to make your health care decisions would not be able to order the withholding of treatments that provide you comfort or alleviate pain.

Q: If I have a Living Will, won’t my physician be more likely to give up on me if I become really sick?
A: No. Physicians have a duty to maintain life as long as there is hope of recovery. A Living Will simply allows you to determine how much life-sustaining treatment you wish to receive in order to postpone dying once two physicians have determined that you will not recover.

Q: Which is better to have, a Living Will or a Health Care Power of Attorney?
A: Actually, it is a good idea to fill out both documents because they address different aspects of your medical care. A Living Will applies only when you are terminally ill and unable to communicate your wishes or if you are permanently unconscious.

A Health Care Power of Attorney becomes effective even if you are only temporarily unconscious and medical decisions need to be made. For example, if you were to become temporarily unconscious due to an accident or surgery, the person you name in your Health Care Power of Attorney could make medical decisions on your behalf.
If you have both documents and become terminally ill and unable to communicate or become permanently unconscious, the Living Will would be followed since it identifies your wishes in these situations.

Q: When does a Living Will or Health Care Power of Attorney become effective?

A: A Living Will becomes effective when you are terminally ill and unable to express your wishes regarding health care or when you are permanently unconscious. In both cases, two physicians, not just one, must agree that you are beyond medical help and will not recover. If you have indicated that you do not want your dying to be artificially prolonged and two physicians say that there is no reasonable hope of recovery, your wishes will be honored.

A Health Care Power of Attorney becomes effective whenever you lose the ability to make your own decisions, even if only temporarily. At these times, health care decisions will be made by the person you designate.

Q: Can I draft a Living Will or Health Care Power of Attorney that says if I become critically ill, I want everything possible done to keep me alive?

A: Yes, but you can’t use the standard forms in this packet. You would need to speak with an attorney about drafting a special document. You also may want to discuss this approach with your personal physician.

Q: If I name someone in my Health Care Power of Attorney to make decisions for me, how much authority does that person have and how can I be certain that he or she is doing what I would like to have done?

A: The person you name as your attorney-in-fact has the authority to make decisions regarding aspects of your medical care if you become unable to express your wishes. For this reason, you should tell the person you name how you feel about life-sustaining treatment, being fed through feeding and fluid tubes, and other important issues.

Also, it is important to remember that a Health Care Power of Attorney document is not the same as a Financial Power of Attorney document, which you might use to give someone authority over your financial or business affairs.

Q: If my condition becomes hopeless, can I specify that I want my feeding and fluid tubes removed?

A: Special instructions are needed to allow for the removal of feeding or fluid tubes if you become permanently unconscious and if the feeding and fluid tubes aren’t needed to provide you with comfort.

If you want to make certain that the tubes are removed, should you become permanently unconscious, you need to place your initials on the space provided on the Living Will or Health Care Power of Attorney form. If you don’t want the tubes removed when you are permanently unconscious, then don’t initial the forms.

Q: Do I have to use the standard forms for a Living Will or Health Care Power of Attorney or can I draw up my own documents?

A: The enclosed forms, which were produced jointly by the Ohio State Bar Association, the Ohio State Medical Association, the Ohio Hospital Association, Ohio Osteopathic Association and the Midwest Care Alliance, comply with the requirements of Ohio Law, but you do not have to use these forms. You may wish to consult an attorney for assistance in drafting a document or you may draft your own. However, in either case, the documents must comply with the specific language spelled out in the Ohio Revised Code.
What you should know about Living Wills:

A Living Will is a document that allows you to establish, in advance, the type of medical care you would want to receive if you were to become permanently unconscious, or if you were to become terminally ill and unable to tell your physician or family what kind of life-sustaining treatments you want to receive. In addition, the latest edition of the Living Will allows you to specify your wishes regarding anatomical gifts (organ and tissue donation).

**A Living Will** is used only in situations where you are unable to tell your physician what kind of health care services you want to receive. Before your Living Will goes into effect, you either must be:

(1) terminally ill (see definition as described in the Living Will Declaration Form) and unable to tell your physician your wishes regarding health-care services;

**OR**

(2) permanently unconscious. To be considered permanently unconscious, two physicians (one of whom must be a medical specialist in an appropriate field) must decide that you have no reasonable possibility of regaining consciousness.
Regardless of your condition, if you were able to speak and tell your physician your wishes about life-prolonging treatments, then the **Living Will** wouldn’t be used – your physician would just talk directly with you about your wishes. A **Living Will** is used by the physician only if you are unable to tell him or her what you want to be done.

**A Living Will** gives your physician the authority to withhold all life-sustaining treatment and permit you to die naturally and take no action to postpone your death, providing you with only that care necessary to make you comfortable and relieve your pain. This may include writing a DNR Order or withdrawing life-sustaining treatment such as CPR.

Such “comfort care” also may include removing nutrition and hydration (food and water) that is administered through feeding tubes or intravenously. If you wish to give your physician this authority if you become permanently unconscious, there is a space on the **Living Will** form that you must initial. If you want nutrition and hydration to be continued, regardless of the circumstances, don’t initial this space.

**A Living Will** can be honored only if your attending physician and others know about it. It is important to let your physician and your family and friends know that you have a **Living Will** before you become ill. After all, a **Living Will** can’t be enforced if people don’t know that it exists. In fact, it is a good idea for you to give your attending physician a copy of your **Living Will**. It also is important to give copies to family and friends so that, if necessary, they can advise your physician that you have a **Living Will**. In addition, it is important that you notify a health care facility that you have a **Living Will** when you are admitted as a patient. Please note: You do not have to go to court to put your **Living Will** into effect.

**Once the decision to withhold life-sustaining treatment is made, your physician must make a reasonable effort to notify the person or persons you designate in your **Living Will** or your closest family member.**

The law allows your family members to challenge a physician’s determination that you have a terminal illness or that you are in a permanently unconscious state. This challenge is limited in nature and may be made only by your closest relatives. The law does not, however, allow your family members to challenge your own legally-documented decision not to be resuscitated.

**If you have both a **Living Will** and a Health Care Power of Attorney, the physician must comply with the wishes you state in your **Living Will**. In other words, your **Living Will** takes precedence over your Health Care Power of Attorney. There is a space on the **Living Will** form that you may check to let your physician and family and friends know that you have a Health Care Power of Attorney.**

**You can revoke your **Living Will** at any time. You can do this by simply telling your physician and family that you have changed your mind and wish to revoke your **Living Will**. It is a good idea to ask anyone who has a copy of the document to return it to you.**
How to fill out the Living Will form:

You should use this form to let your physician and your family know what kind of life-sustaining treatments you want to receive if you become terminally ill or permanently unconscious and are unable to express your wishes.

NOTE:

1. Read over all information carefully. Definitions are included as part of the form.

2. On the first two lines of the form, print your full name and birth date.

3. On the fourth page of the form, written in bold type face under Special Instructions is the statement that will give your physician permission to withhold food and fluids in the event you are permanently unconscious. If you want to give your physician permission to withhold food and water in this situation, then you must place your initials on the line indicated in number 3.

4. The next section of the form (immediately below the Special Instructions) provides space for you to list the names, addresses and phone numbers of the contacts (usually family members and close friends) that you want your physician to notify when the Living Will goes into effect. Remember, the Living Will goes into effect only when you are terminally ill or permanently unconscious and you cannot express your own wishes about the health care you receive.

5. Following the “Anatomical Gift section” is a space to check whether or not you have completed a Health Care Power of Attorney. Immediately below this space is a place for you to date and sign the form. Remember, the Living Will is not considered valid or effective unless you do one of the following:

   **First Option** – Date and sign the Living Will in the presence of two witnesses, who also must sign and include their addresses and indicate the date of their signatures.

   OR

   **Second Option** – Date and sign the Living Will in the presence of a notary public and have the Living Will notarized on the appropriate space provided on the form.

The following people may not serve as a witness to your Living Will:

- Anyone related to you by blood, marriage or adoption (this includes your husband or wife and your children);
- Your attending physician;
- If you are in a nursing home, the administrator of the nursing home.

6. Once you have filled out the Living Will and either signed it in the presence of witnesses or in the presence of a notary public, then it is a good idea to give a copy to your personal physician and any contacts you have listed in the Living Will. In some Ohio counties, people may be able to register their Living Wills with the county recorder. However, it is important to keep in mind that a registered Living Will form becomes a public record.
State of Ohio  
Living Will Declaration  
Notice to Declarant

The purpose of this Living Will Declaration is to document your wish that life-sustaining treatment, including artificially or technologically supplied nutrition and hydration, be withheld or withdrawn if you are unable to make informed medical decisions and are in a terminal condition or in a permanently unconscious state. This Living Will Declaration does not affect the responsibility of health care personnel to provide comfort care to you. Comfort care means any measure taken to diminish pain or discomfort, but not to postpone death.

If you would not choose to limit any or all forms of life-sustaining treatment, including CPR, you have the legal right to so choose and may wish to state your medical treatment preferences in writing in a different document.

Under Ohio law, a Living Will Declaration is applicable only to individuals in a terminal condition or a permanently unconscious state. If you wish to direct medical treatment in other circumstances, you should prepare a Health Care Power of Attorney. If you are in a terminal condition or a permanently unconscious state, this Living Will Declaration controls over a Health Care Power of Attorney.

You should consider completing a new Living Will Declaration if your medical condition changes, or if you later decide to complete a Health Care Power of Attorney. If you have both documents, you should keep copies of both documents together, with your other important papers, and bring copies of both your Living Will and your Health Care Power of Attorney with you whenever you are a patient in a health care facility.
State of Ohio
Living Will Declaration
Of

__________________________________________________________________________
(Print Full Name)

__________________________________________________________________________
(Birth Date)

I state that this is my Ohio Living Will Declaration. I am of sound mind and not under or subject
to duress, fraud or undue influence. I am a competent adult who understands and accepts the
consequences of this action. I voluntarily declare my wish that my dying not be artificially
prolonged.

If I am unable to give directions regarding the use of life-sustaining treatment when I am in a
terminal condition or a permanently unconscious state, I intend that this Living Will Declaration be
honored by my family and physicians as the final expression of my legal right to refuse health care.

Definitions. Several legal and medical terms are used in this document. For convenience they are
explained below.

Anatomical gift means a donation of all or part of a human body to take effect upon or after
death.

Artificially or technologically supplied nutrition or hydration means the providing of food
and fluids through intravenous or tube “feedings.”

Cardiopulmonary resuscitation or CPR means treatment to try to restart breathing or
heartbeat. CPR may be done by breathing into the mouth, pushing on the chest, putting a tube
through the mouth or nose into the throat, administering medication, giving electric shock to
the chest, or by other means.

Declarant means the person signing this document.

Donor Registry Enrollment Form means a form that has been designed to allow individuals
to specifically register their wishes regarding organ, tissue and eye donation with the Ohio
Bureau of Motor Vehicles Donor Registry.

Do Not Resuscitate or DNR Order means a medical order given by my physician and
written in my medical records that cardiopulmonary resuscitation or CPR is not to be
administered to me.

Health care means any medical (including dental, nursing, psychological, and surgical)
procedure, treatment, intervention or other measure used to maintain, diagnose or treat any
physical or mental condition.

Health Care Power of Attorney means another document that allows me to name an adult
person to act as my agent to make health care decision for me if I become unable to do so.
Life-sustaining treatment means any health care, including artificially or technologically supplied nutrition and hydration, that will serve mainly to prolong the process of dying.

Living Will Declaration or Living Will means this document that lets me specify the health care I want to receive if I become terminally ill or permanently unconscious and cannot make my wishes known.

Permanently unconscious state means an irreversible condition in which I am permanently unaware of myself and my surroundings. My physician and one other physician must examine me and agree that the total loss of higher brain function has left me unable to feel pain or suffering.

Terminal condition or terminal illness means an irreversible, incurable and untreatable condition caused by disease, illness or injury. My physician and one other physician will have examined me and believe that I cannot recover and that death is likely to occur within a relatively short time if I do not received life-sustaining treatment.

[Instructions and other information to assist in completing this document are set forth within brackets and in italic type.]

Health Care if I Am in a Terminal Condition. If I am in a terminal condition and unable to make my own health care decisions, I direct that my physician shall:

1. Administer no life-sustaining treatment, including CPR and artificially or technologically supplied nutrition or hydration; and

2. Withdraw such treatment, including CPR, if such treatment has started; and

3. Issue a DNR Order; and

4. Permit me to die naturally and take no action to postpone my death, providing me with only that care necessary to make me comfortable and to relieve my pain.

Health Care if I Am in a Permanently Unconscious State. If I am in a permanently unconscious state, I direct that my physician shall:

1. Administer no life-sustaining treatment, including CPR, except for the provision of artificially or technologically supplied nutrition or hydration unless, in the following paragraph, I have authorized its withholding or withdrawal; and

2. Withdraw such treatment, including CPR, if such treatment has started; and

3. Issue a DNR Order; and

4. Permit me to die naturally and take no action to postpone my death, providing me with only that care necessary to make me comfortable and to relieve my pain.
Special Instructions. By placing my initials at number 3 below, I want to specifically authorize my physician to withhold or to withdraw artificially or technologically supplied nutrition or hydration if:

1. I am in a permanently unconscious state; and

2. My physician and at least one other physician who has examined me have determined, to a reasonable degree of medical certainty, that artificially or technologically supplied nutrition and hydration will not provide comfort to me or relieve my pain; and

3. I have placed my initials on this line: _______________________

Notifications. [Note: You do not need to name anyone. If no one is named, the law requires your attending physician to make a reasonable effort to notify one of the following persons in the order named: your guardian, your spouse, your adult children who are available, your parents, or a majority of your adult siblings who are available.]

In the event my attending physician determines that life-sustaining treatment should be withheld or withdrawn, my physician shall make a reasonable effort to notify one of the persons named below, in the following order of priority:

[Note: If you do not name two contacts, you may wish to cross out the unused lines.]

First Contact:  
Name: ________________________  
Address: ________________________  
Telephone: ________________________

Second Contact:  
Name: ________________________  
Address: ________________________  
Telephone: ________________________

Anatomical Gift (optional)

Upon my death, directions regarding donation of all or part of my body are indicated on a DONOR REGISTRY ENROLLMENT FORM.

If I do not indicate a desire to donate all or part of my body by filling out a DONOR REGISTRY ENROLLMENT FORM, no presumption is created about my desire to make or refuse to make an anatomical gift.

[ ] I wish to make an anatomical gift.
NOTE: If you modify or revoke your decision regarding anatomical gifts, please remember to make those changes in your Living Will, Health Care Power of Attorney, and Donor Registry Enrollment Form.

No Expiration Date. This Living Will Declaration will have no expiration date. However, I may revoke it at any time.

Copies the Same as Original. Any person may rely on a copy of this document.

Out of State Application. I intend that this document be honored in any jurisdiction to the extent allowed by law.

Health Care Power of Attorney. I have completed a Health Care Power of Attorney:

________ Yes  ________ No

SIGNATURE

[See below for witness or notary requirements.]

I understand the purpose and effect of this document and sign my name to this Living Will Declaration on _______________, 20___, at _______________, Ohio.

DECLARANT

[You are responsible for telling members of your family, the agent named in your Health Care Power of Attorney (if you have one), and your physician about this document. You also may wish to tell your religious advisor and your lawyer that you have signed a Living Will Declaration. You may wish to give a copy to each person notified.]

[You may choose to file a copy of this Living Will Declaration with your county recorder for safekeeping.]

WITNESS OR NOTARY ACKNOWLEDGMENT

[Choose one]

[This Living Will Declaration will not be valid unless it either is signed by two eligible witnesses who are present when you sign or are present when you acknowledge your signature, or it is acknowledged before a Notary Public.]

[The following persons cannot serve as a witness to this Living Will Declaration: the agent or any successor or agent named in your Health Care Power of Attorney; your spouse; your children; anyone else related to you by blood, marriage or adoption; your attending physician; or, if you are in a nursing home, the administrator of the nursing home.]
Witnesses. I attest that the Declarant signed or acknowledged this Living Will Declaration in my presence, and that the Declarant appears to be of sound mind and not under or subject to duress, fraud or undue influence. I further attest that I am not an agent designated in the Declarant’s Health Care Power of Attorney, I am not the attending physician of the Declarant, I am not the administrator of a nursing home in which the Declarant is receiving care, and I am an adult not related to the Declarant by blood, marriage or adoption.
